SUMMARY

Computer Science student focused on building scalable web platforms and AI-powered automation tools. Experienced in full-stack development, UI automation systems, and hackathon-driven product development. Strong interest in intelligent software systems, developer tooling, and real-world problem solving.

EDUCATION

Bachelor of Technology — Computer Science

Expected Graduation: 2029

Amity University Madhya Pradesh

Relevant Areas: Full Stack Development, Data Structures, Operating Systems, AI/ML Fundamentals

TECHNICAL SKILLS

Languages: Python, C, JavaScript, TypeScript

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, FastAPI

Database / BaaS: Firebase, Supabase

Tools & Platforms: Git, GitHub, Linux, Vercel

Concepts: Full Stack Development, UI Automation Systems, AI Integration

EXPERIENCE

Technical Team Member

Duration: Present

Amity Coding Club, Amity University Madhya Pradesh

- Organize coding competitions, CTF events, and technical workshops for club members.
- Build and maintain club resources and developer tools for the community.
- Mentor junior students in problem solving, web development, and cybersecurity fundamentals.

HackSetu Hackathon — 3rd Runner-Up

24-Hour Hackathon

- Built a working prototype and shipped core application features collaboratively under time pressure.

Capture The Flag (CTF) — Winner

Amity Coding Club

- Solved multi-domain challenges in cryptography, web exploitation, and binary debugging.

PROJECTS

AmityConnect — Smart Campus Safety Platform

GitHub | amityconnect.vercel.app

- Built a campus safety platform with SOS emergency alerts, ride sharing, and a peer service marketplace.
- Implemented real-time location-based emergency response connecting students with nearby responders.
- Designed gamified engagement features including badges, streaks, and participation tracking.

Stack: Next.js, Firebase, Tailwind CSS

ManMitra — Student Mental Health Support Platform

GitHub | man-mitra-weld.vercel.app

- Developed a mental wellness platform with counseling sessions, peer support, and mood tracking.
- Implemented an AI support assistant and real-time appointment booking system.
- Designed role-based dashboards for students, counselors, and administrators.

Stack: React, TypeScript, Supabase, Tailwind CSS

Autonomous QA Bot — AI UI Testing Agent

GitHub

- Converts natural language test instructions into executable browser tests with self-healing element detection.
- Auto-generates bug reports including screenshots, logs, and reproduction steps.

Stack: Playwright, Node.js, AI Integration

Jeevanamrit — Ayurvedic Health Management Dashboard

- Built a wellness dashboard for doctors and patients to track health metrics and treatment plans.
- Implemented dosha-based diet planning, Ayurvedic health questionnaires, and clinical reporting.

Stack: React, TypeScript, Supabase

ACHIEVEMENTS & CERTIFICATIONS

- | | |
|--|-------------|
| • Winner — Capture The Flag (CTF), Amity Coding Club | Certificate |
| • Winner — Brand Combat Competition, SISTec University Bhopal | Certificate |
| • 3rd Runner-Up — HackSetu 24-Hour Hackathon | Certificate |
| • 2nd Prize — Ideathon Competition | |
| • 2nd Prize — Science Day Model Presentation | |
